# Steel track

## Steel track

The closed sections are made from highly rigid, low-wear fine grain steel. The sharp profile edge penetrates even hard surfaces well. With a full complement of spikes, the steel tracks have good climbing performance and lateral stability.

## Application areas

Steel tracks are designed for extreme tasks, maximum thrust in steep terrain and on ice and rock. Even on heavy machine-made snow, they are perfectly suited for preparation and dozing work, and even satisfy the extreme demands of work in the Antarctic regions.

Vehicle	track width mm	Vehicle width mm	Track mm	Cleats units	Cleats height mm	Cleats width mm	Distance of belts mm	No. of belts	Thickness of belts mm
